## OF INTEREST TO ALL VOTERS OF NYE COUNTY

PLATFORM ADOPTED BY REPUBLICANS SHOULD BE READ BY ALL VOTERS

The platform of the republican candidates of Nye county as drafted several weeks ago, should be carefully read by all voters of this county. It contains for the most part, especially that part relating to legislative candidates to labor for certain measures. For the benefit of those who have not read the platform it is reproduced here in full:

The republican candidates of Nye county assembled in convention, pursuant to the provisions of the primary law, offer no program that is not bulwarked with performances; makes no promises but what are for the interest of the tax payers and property owners of this county.

The past four years of republican rule in this nation has been such that we again give our hearty endorsement to the platform and candidates presented by the national republican convention. Never has the country been confronted with such problems and situations as have arisen during the last four years, and never have such problems been handled with such skill and courage. President Taft has demonstrated his fitness for the office he now holds, and for which he is a candidate for reelection, and though assailed by agitators and decryers by theorists, the condition of the United States today is a tribute to his performance of every duty demanded.

The state republican platform and candidates likewise receive our unanimous endorsement.

### Endorsement in State Offices

We pledge our legislative candidates to the enactment of a measure reducing the expense of the state government to conform with the revenues of the state and prevent the further issuance of bonds to meet the deficit in the general fund.

### The State Bank Receivership

We pledge our legislative candidates to secure an investigation into the affairs of the long defunct State Bank and Trust company. There are hundreds of people in Nye county who lost their savings in this institution and who are not able to secure a proper report showing the

Republican national, state, county and township officers who are deserving of the support of the Nye county voters.

## SCOOP THE CUB REPORTER

Guests have met with silence on the assets of the bank. Repeated report of the receiver in charge and we pledge our legislative candidates to work for the passage of a resolution through both houses of the legislature, securing the appointment of a committee to conduct a public investigation of the affairs of the bank.

### Good Roads

We pledge our county and legislative candidates to adopt every means whereby the roads of this county will be repaired and new thoroughfares constructed. We recognize that good roads mean that hundreds of tourists will pass through our county, and within the next few years thousands of motor driven machines will cross the continent. It is within the power of southern Nevada to provide a feasible route for the travelers, and we pledge all our candidates to secure the enactment of a proper measure that will insure the construction of a

transcontinental route through Nye county.

### Primary Election Law

We pledge our legislative candidates to the enactment of sweeping amendments to the present primary law, which in its self is nothing short of farcical. We favor such amendments that will prohibit voters from flocking from one standard to another without a declaration of their political faith. We believe in the sanctity of the ballot and urge that secrecy be continued, but are opposed to the present construction of the primary law that allows fraud being perpetrated.

### Free Text Books

We pledge our legislative candidates to labor for the passage of a measure providing for the furnishing of free text books by the state to the pupils attending our public schools.

## Scoop Was Not Dressed For The Occasion

## INVESTORS ARE WATCHING MINES OF THIS CAMP

NEW YORK MINING JOURNAL  
CONTINUES TO DEVOTE SPACE  
TO LOCAL MINES

Tonopah again comes in for mention this week by the investor writing in the New York Mining Age. The following is taken from that paper.

One of the most remarkable problems which has confronted the development of any property at Tonopah since the camp was discovered is the very extraordinary mineral zone which has been cut in the Jim Butler property at a depth of 600 feet. The development work at that point has to date cut a zone for a distance of 70 feet where the country rock seems to be cut by innumerable segments or veinlets of high-grade ore, these seams running in width from two inches to one or two feet. As a general average they will show a width of about four inches and carry values of about \$40 per ton. Unfortunately, these seams are not sufficiently wide enough to justify the company undertaking to drift in on all of them to determine what they will lead to, although the widest has been picked out to be explored. A winze is being sunk in the ore zone and cutting out for a station for an underground compressed air hoist is in progress and this will be installed in a few days. This winze will first be sunk 100 feet and the ore zone from this point will be crosscut from wall to wall. An old northeast crosscut on this level is also being cleaned out and from this a drift will be started southeast on a minor fault, which shows drag quartz carrying good values. On the 300foot level the vein in the stope split, and a portion has dipped into the footwall and the stope is being carried up on the hanging wall branch, which is from five to seven feet wide. From what is known of the upper workings there is good reason to believe that the footwall branch is much better grade and a crosscut will now be run from the stope to pick this up. The north

crosscut on this level was extended the usual distance and is now cutting some small seams of ore.

### TO HOLD GHOST PARTY AT THE SKATING RINK

A "ghost" party will take place at the skating rink Saturday night when all skaters are requested to attend, attired in sheet and pillow cases. A prize of a pair of Richardson aluminum wheel skates will be presented to the couple who are declared to be the most graceful skaters in the hall. A dressing room will be provided and skaters can attire themselves in the "ghost" costumes before entering the hall.

### PROMOTER YANCEY TO BE TRIED FOR FRAUD

PITTSBURG, Oct. 31.—On charges that he secured \$1500 from John A. Bell, vice president of the Colonial Trust company, with which to buy oil land for Bell in California, and then keeping the money without making the purchases, James C. Yancey of Los Angeles is being brought to this city.

Yancey is a promoter of oil concerns capitalized at \$15,000,000 and became noted a year ago for the declaration that he had for sale a species of hog with mule-like hoofs and that these unusual "grunters" were immune from cholera. Yancey is a prisoner of Detective George Waggoner of this city, charged with embezzlement.

### DON'T KNOW THEY HAVE APPENDICITIS

Many Tonopah people have chronic appendicitis (which is not very painful) and think it is just bowel or stomach trouble. Some have doctored for years for gas on the stomach, sour stomach or constipation and the Tonopah Drug company states if they will try simple buckthorn bark, glycerine, etc., as compounded in Adler's-ka, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE stops these troubles INSTANTLY.

The real estate market will be "dull" most of the time if you try to sell property without the help of the Bonanza advertising.

### HEIR ARRIVES AT THE FRANK HOUSEHOLD

A baby boy arrived at the home of Mr. and Mrs. John Frank last evening and today both mother and child are reported as progressing nicely. Mr. Frank is employed at the Extension.

## ---how much Is A "Regular Customer" Worth to Your Store?

Suppose you could BUY 100 additional REGULAR CUSTOMERS during the next week or two—customers who, for years and years to come, would make a MAJORITY of their purchases of goods in your line at YOUR STORE?

What would each of these 100 customers be WORTH to you?

It is, we think, quite likely that if such an investment were possible, you'd eagerly pay TWICE AS MUCH as it would cost you to secure these 100 REGULAR CUSTOMERS through an advertising campaign big enough and aggressive enough to really make people ACQUAINTED with your store!

## Col. Roosevelt Received \$1 A Word For His African Hunting Stories

That was a high rate to pay even a very distinguished author. But—to a limited extent—you may earn a higher rate of compensation than that for your own writing.

If, for example, you write a 10-word "situation wanted" ad for the Bonanza, and it finds you a position paying \$500 a year more than you've been earning—how much "per word" have you earned an "author?"

Or, suppose that a 10-word "help wanted" ad would secure an employe for you, whose services would be worth twice as much as you'll pay in salary or wages, wouldn't "writing" of that sort stamp you as a high-priced author?

In writing ads that will sell your real estate to the right buyers—or any property which you want to sell to the people to whom it will be worth most—you may earn, with your pen, a far higher rate than \$1 per word.
